

Community Scavenger Hunt

To get more familiar with your own community, take some time to explore and look more deeply around you. Pay attention to how you can get around your city: is it easy to walk, bike, or take a bus places? Or did you ride in a car to get somewhere? Try to find as many of these items as you can, and if one isn't in your city, ask "Why?" or "Where could this be found?" Be curious and have fun!
